NET WT/PESO NETO 16 oz (453 g)

ACTIVE INGREDIENTS:	
Tetramethrin [(1-Cyclohexene-1,2dicarboximido) methyl 2,2-dimethyl -3-(2-methylpropenyl) cyclopropanecarboxylate]	**0.200%**
Sumithrin (3-Phenoxybenzyl-(1RS, 3RS; 1RS, 3SR)-2,2-dimethyl-3-(2-methylprop-1-enyl) cyclopropanecarboxylate	**0.200%**
OTHER INGREDIENTS	**99.600%**
TOTAL	**100.000%**

For both indoor and outdoor use
Para uso en interiores y exteriores

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
Se considera una violación a la ley federal usar este producto con otros fines que los indicados en la etiqueta.

SHAKE WELL BEFORE USE

General Precautions & Restrictions: Avoid contamination of food and feedstuffs. Do not use in food areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where food is served, such as dining rooms, but excluding areas where foods may be prepared or held. Do not apply when food is present. Exposed food should be covered or removed. All food preparation surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets and birds and cover fish aquariums and ornamental fishponds before spraying and turn aquarium systems off. Spot treatments must not exceed two square feet in size (for example, 2 ft. by 1 ft. or 4 ft. by 0.5 ft.). Do not allow adults, children or pets to enter the treated area until sprays have dried. Do not apply this product in a way that will contact adults, children, or pets either directly or through drift. All outdoor spray applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses: 1. Application to pervious surfaces such as soil, lawn, turf, and other vegetation; 2. Perimeter band treatments of 7 feet wide or less from the base of a man-made structure to pervious surfaces (e.g., soil, mulch, or lawn); 3. Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure; 4. Applications around potential exterior pest entry points into man-made structures such as doorways and windows, when limited to a band not to exceed one inch; 5. Applications to vertical surfaces (such as the side of a man-made structure) directly above impervious surfaces (e.g., driveways, sidewalks, etc.), up to 2 feet above ground level; 6. Applications to vertical surfaces directly above pervious surfaces (such as soil, lawn, turf, mulch or other vegetation) only if the pervious surface does not drain into ditches, storm drains, gutters, or surface waters. Do not apply the product into fish pools, ponds, streams, or lakes. Do not apply directly to sewers or storm drains, or to any area like a drain or gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application. Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack-and-crevice treatment. Do not apply or irrigate to the point of runoff. Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours). Do not make applications during rain. Rainfall within 24 hours after application may cause unintended runoff of pesticide application. **Use Precautions:** 1. Avoid spraying desirable plants. Rinse with water any desirable foliage that is contacted with spray. 2. This product may stain or adversely affect vinyl, painted, and plastic surfaces. Avoid application to asphalt roofing shingles as staining may occur. Before using in areas where spray may contact these surfaces, test in an inconspicuous area and recheck in a few hours. **OUTDOOR USES**: Under eaves, near window frames, doorways, carports, picnic areas, and outdoor play areas. **INDOOR USES:** Attics, and anywhere nests are built and where food and feed are not exposed. **To Kill Wasps, Yellowjackets, Mud Daubers, and Hornets:** To treat nests: 1. Spray at sunrise or sunset when insects are least active. 2. Stand a safe distance from the nest. Do not stand directly underneath. 3. Shake can well before each use. Hold can upright and spray away from person. Push button to spray. 4. Aim actuator at the opening in the nest and spray until soaked. 5. Then spray the rest of the nest until it is saturated. 6. Wait at least 24 hours before removing the nest. 7. Do not apply when the wind speed is greater than 15 mph. TO KILL AND PREVENT Wasps, Hornets, Yellowjackets, Fire Ants, Spiders (including Black Widow Spiders), Crickets, Ants, Fleas, Ticks, Centipedes, Earwigs, Flies, and Mosquitoes FROM ENTERING THE HOME OR LIVING AREA: 1. Spray 1-2 seconds until surface is moist to kill insects under eaves, around screens, windows, doors, patios, cracks, holes and crevices or wherever insects are noticed. 2. Spray 1-2 seconds until surface is moist around areas where insects enter such as outdoor plumbing, faucets, etc. and cracks or crevices in foundations as well as along sills and ledges. 3. Treat surfaces to ensure thorough coverage but avoid runoff. 4. To treat insects harbored in voids and cracks-and-crevices, applications must be made in such a manner to limit dripping and avoid runoff onto untreated structural surfaces and plants.

To kill listed pests, including Fire Ants, Spiders (including Black Widow Spiders), Crickets, Ants, Fleas, Ticks, Centipedes, Earwigs, Flies, and Mosquitoes: Spray short 1 - 2 second bursts directly on insects. Do not apply when the wind speed is greater than 15 mph. **Use Tips:** 1. Do not apply when the wind speed is greater than 15 mph. 2. Avoid spraying vegetation directly. 3. Rinse with water any desirable foliage that is contacted with spray.

Do not allow to enter indoor or outdoor drains.
No permita la entrada a desagües internos o externos.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal. Follow proper disposal procedures on this label. Siga las indicaciones del etiquetado para el desecho apropiado del producto. **Pesticide Storage:** Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food. **Pesticide Disposal and Container Handling:** Do not Puncture or Incinerate! Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Do not pour or dispose down-the-drain or sewer.

Federal regulations prohibit CFC propellants in aerosols.

CONTAINS NO CFCs WHICH DEPLETE THE OZONE LAYER
NO CFCs

Las normas federales prohíben el uso de propulsores CFC en aerosoles.

FIRST AID

IF ON SKIN OR CLOTHING: • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-877-465-5161.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing.

PERSONAL PROTECTIVE EQUIPMENT: Wear long sleeved shirt, long pants, shoes, socks, and waterproof-resistant gloves.

ENVIRONMENTAL HAZARDS: This pesticide is extremely toxic to aquatic organisms, including fish and aquatic invertebrates. Do not apply directly to water. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of aerosol unit. See Directions for Use for additional precautions and requirements. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the area.

USER SAFETY RECOMMENDATIONS: User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. User should remove clothing/PPE immediately if pesticide gets inside, then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting. Do not apply this product around electrical equipment due to possibility of shock hazard.

ALMACENAMIENTO Y ELIMINACIÓN

No contamine el agua, la comida ni el pienso para animales al almacenar o eliminar el producto. Siga las indicaciones del etiquetado para el desecho apropiado del producto. **Almacenamiento del pesticida:** Almacene en un lugar fresco y seco. Almacene siempre los pesticidas en su envase original. No lo almacene cerca de los alimentos ni de la comida para las mascotas. **Eliminación del pesticida y manejo del envase:** ¡No perfore ni incinere el envase! Este envase no se puede rellenar. No vuelva a usar ni a llenar este envase. **Si está vacío:** Tírelo a la basura o recíclelo, de ser posible. **Si está parcialmente lleno:** Llame a su agencia local de desechos sólidos para obtener instrucciones sobre cómo eliminarlo. No lo vierta ni tire por el drenaje o una alcantarilla.

PRIMEROS AUXILIOS

EN CASO DE CONTACTO CON LA PIEL O LA ROPA: • Quítese la ropa contaminada. • Enjuague la piel de inmediato con abundante agua por 15 a 20 minutos. • Llame a un centro de control de envenenamientos o a un médico para recibir instrucciones de tratamiento. Tenga el envase o la etiqueta del producto con usted cuando llame a un centro de control de envenenamientos o al médico, o al acudir a recibir tratamiento. Para obtener información sobre emergencias médicas o incidentes relacionados con pesticidas, llame al 1-877-465-5161.

AVISOS DE PRECAUCIÓN

RIESGOS PARA LOS SERES HUMANOS Y LOS ANIMALES DOMÉSTICOS

PRECAUCIÓN: Es nocivo si se absorbe a través de la piel. Evite el contacto con la piel, los ojos o la ropa.

EQUIPO DE PROTECCIÓN INDIVIDUAL: Vista camisa de manga larga, pantalones largos, zapatos, medias o calcetines y guantes impermeables.

RIESGOS MEDIOAMBIENTALES: Este pesticida es extremadamente tóxico para los organismos acuáticos, incluyendo los peces y los invertebrados. No aplique este producto directamente al agua. El producto que se escurra o sea arrastrado por el viento puede ser peligroso para los organismos acuáticos de los cuerpos de agua adyacentes a las áreas tratadas. No contamine el agua al deshacerse del envase del aerosol. Lea el Modo de empleo para conocer las precauciones y los requisitos adicionales. Este producto es sumamente tóxico para las abejas expuestas al tratamiento directo de los cultivos o las hierbas en floración. No aplique este producto ni permita que sea arrastrado por el viento hacia los cultivos o las hierbas en floración cuando haya actividad de abejas en el área.

RECOMENDACIONES DE SEGURIDAD PARA LOS USUARIOS: El usuario debe lavarse las manos antes de comer, beber, masticar chicle, consumir tabaco o usar el inodoro. El usuario debe quitarse la ropa o el EPI de inmediato si le cae dentro pesticida, para luego lavarse bien y ponerse ropa limpia. Los usuarios deben quitarse su EPI inmediatamente después de manipular este producto. Lave el exterior de los guantes antes de quitárselos. Tan pronto como sea posible, lávese bien y póngase ropa limpia.

RIESGOS FÍSICOS O QUÍMICOS: Contenido bajo presión. No utilice ni almacene el producto cerca del calor o el fuego. No perfore ni incinere el envase. Exponer el producto a temperaturas superiores a 130 °F (54 °C) puede provocar la explosión del envase. No aplique este producto alrededor de equipos eléctricos, ya que existe el riesgo de sufrir una descarga eléctrica.
